

## Data Sheet JPS-4

Article number: E6160057

Universal pressure switch with 2 switching ranges. With connection piece for 10 mm cutting ring fitting.

The JSP is a universal pressure switch with 2 switching ranges, starter button and indicator lamp and is suitable for oil, water and air. It can also be used as a regulator for controlling and monitoring domestic oil supply systems, pressure boosting systems, oil feed pumps, etc.

Operation	internal setpoint adjuster, start button
Electric connection	screw terminals
Electronic version	No
With explosion protection	No
Sensor element	pressure membrane
Function type (systems engineering)	monitor
Internal setting	Yes
Housing material	Metal sheet steel
Max. switching voltage	230 VAC, 50 Hz
Max. switching current	2 (2) A

Medium temperature	-30 ... 80 °C
With LED display	Yes
Switching contact	two-way contact
Protection class	IP10
